

Unleashing Potential with Every Activity

At the Wonder Kids Workshop, we invite children to explore their creativity and build essential skills through an engaging, radio-themed program. Working with the imaginary WCLF 104 AM, Conscious Living Frequency, kids will dive into the exciting world of radio broadcasting.

Unlock the Power of Communication and Expression!

Our program focuses on enhancing communication and expression, allowing kids to use their imagination to create and present their own shows. Through fun activities and role-playing, they'll develop confidence, refine their storytelling abilities, and expand their perspectives. Join us to spark curiosity and unlock their potential with every activity! 60 - 90 min.

Perfect for Birthday Parties, Friends Stay-Over Activities, "Little Entrepreneurs"
